## It's Easy

Whether you're 19 or 90, NWLink's easy-to-follow menus and tabs guide you through every step of set-up and account management. An online help directory will walk you through a quick tutorial or answer your specific questions in an instant.

## Added Account Management

Add free electronic statements and email notifications to your account to complete your online banking experience. With eStatements, you can avoid mail delays and misdirection and have secure, online access to 12 months of account history. View, download or print your statements as you wish without ever having to worry about them getting lost or stolen.

And to help protect your account from fraudulent activity, enroll in our e-LERT notification service. We'll help you monitor deposits, automatic withdrawals, balances and overdrafts when you opt-in for these or other valuable email notifications.

## It's Secure

Only you can log in to view and manage your NWFCU accounts. NWLink uses PassMark security features to verify your identity as a trusted user by identifying your computer as an approved device at each login. You select a username; you select a confidential password; we provide state-of-the-art Secure Socket Layer (SSL) 128-bit encryption to protect you from fraudulent access.

## Mobile Banking

With your web-enabled cell phone or PDA, you have complete access to your accounts at **go.nwfcu.org**. Get the latest NWFCU news, check current rates, and find a branch or ATM near you. As an NWLink Internet Banking user, you can view your accounts in detail and make account transfers just like you do from your PC. Plus, with the added power of an NWFCU checking account and free Bill Payer, you can even make payments from your mobile device.
