REPORTING INFORMATION APPLICABLE TO ROTH IRA WITHDRAWALS

You must supply all requested information for the withdrawal so the trustee or custodian can properly report the withdrawal.

If you have any questions regarding a withdrawal, please consult a competent tax professional or refer to IRS Publication 590-B, *Distributions from Individual Retirement Arrangements (IRAs)*, for more information. This publication is available on the IRS website at www.irs.gov or by calling 1-800-TAX-FORM.

WITHDRAWAL INFORMATION

Roth IRA assets can be withdrawn at any time. Most Roth IRA withdrawals are reported to the IRS. IRS rules specify the distribution code that must be used to report each withdrawal on IRS Form 1099-R, Distributions From Pensions, Annuities, Retirement or Profit-Sharing Plans, IRAs, Insurance Contracts, etc.

Five-Year Period. You have satisfied the five-year period for determining qualified withdrawals on January 1 of the fifth year following the year for which you made your first Roth IRA contribution, conversion, or rollover from an eligible employer-sponsored retirement plan.

Qualified Withdrawal. A qualified withdrawal is one where you have satisfied the five-year waiting period and the withdrawal is due to being age 59% or older, death, or disability. Qualified withdrawals are reported on Form 1099-R using code Q.

WITHDRAWAL REASON

Transfer to Another Roth IRA. Transfers are not reported on Form 1099-R. Transfers may be made by a Roth IRA owner, beneficiary, or former spouse under a transfer due to a divorce. Inherited IRA assets may only be transferred to another inherited IRA, unless you are a spouse beneficiary.

Age 59% or Older. If you are age 59% or older, withdrawals are reported on Form 1099-R using code T, unless they are qualified withdrawals.

Under Age 59%. If you are under age 59%, withdrawals for any reason not listed below are reported on Form 1099-R using code J.

- Disability. If you are under age 59½ and disabled, withdrawals are reported on Form 1099-R using code T, unless they are qualified withdrawals.
- IRS Levy or Substantially Equal Periodic Payments. If you are under age 59%, withdrawals due to IRS levy or substantially equal periodic payments are reported on Form 1099-R using code 2. Certain distributions taken due to federally declared disasters also are reported using code 2. Please refer to the IRS website at www.irs.gov for more information and a listing of the disaster areas.

Death Withdrawal by a Beneficiary. Withdrawals by beneficiaries following the death of the original Roth IRA owner are reported on Form 1099-R using code T, unless they are qualified withdrawals.

Prohibited Transaction. Prohibited transactions as defined in Internal Revenue Code Section 4975(c) are reported on Form 1099-R using code 5.

Excess Contribution Removed Before the Excess Removal Deadline. Excess contributions removed before the excess removal deadline (your tax filing deadline, including extensions) must include the net income attributable to the excess.

- If your excess contribution was contributed and removed in the same year, before the excess removal deadline, the withdrawal is reported on Form 1099-R using codes 8 and J.
- If your excess contribution was contributed in one year and removed in the next year, before the excess removal deadline, the withdrawal is reported on Form 1099-R using codes P and J.

Excess Contribution Removed After the Excess Removal Deadline. If your excess contribution is removed after the excess removal deadline, the withdrawal is reported on Form 1099-R using code J if you are under age 59½, code T if you are age 59½ or older, or code Q if the distribution is a qualified withdrawal.

Recharacterization. A Roth IRA contribution including the net income attributable may be recharacterized as a Traditional IRA contribution up until your tax filing deadline, including extensions.

- Recharacterizations that occur in the same year for which the contribution was made are reported on Form 1099-R using code N.
- Recharacterizations that occur after the year for which the contribution was made are reported on Form 1099-R using code R.

Revocations. Revocations of regular contributions, conversions, rollovers, or transfers are reported on Form 1099-R using code J. A revocation of a regular contribution with earnings if you are under age 59½ is reported on Form 1099-R using codes J and 8.

WITHHOLDING INSTRUCTIONS (Form W-4R/OMB No. 1545-0074)

General Instructions

Section references are to the Internal Revenue Code.

Future developments. For the latest information about any future developments related to Form W-4R, such as legislation enacted after it was published, go to www.irs.gov/FormW4R.

Purpose of form. Complete Form W-4R to have payers withhold the correct amount of federal income tax from your nonperiodic payment or eligible rollover distribution from an employer retirement plan, annuity (including a commercial annuity), or individual retirement arrangement (IRA). See below for the rules and options that are available for each type of payment. Don't use Form W-4R for periodic payments (payments made in installments at regular intervals over a period of more than 1 year) from these plans or arrangements. Instead, use Form W-4P, Withholding Certificate for Periodic Pension or Annuity Payments. For more information on withholding, see Pub. 505, Tax Withholding and Estimated Tax.

Caution: If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. If too much tax is withheld, you will generally be due a refund when you file your tax return. Your withholding choice (or an election not to have withholding on a nonperiodic payment) will generally apply to any future payment from the same plan or IRA. Submit a new Form W-4R if you want to change your election.

Nonperiodic payments—10% withholding. Your payer must withhold at a default 10% rate from the taxable amount of nonperiodic payments unless you enter a different rate in the Withholding Election section. Distributions from an IRA that are payable on demand are treated as nonperiodic payments. Note that the default rate of withholding may not be appropriate for your tax situation. You may choose to have no federal income tax withheld by entering "-0-" in the Withholding Election section. See the specific instructions below for more information. Generally, you are not permitted to elect to have federal income tax withheld at a rate of less than 10% (including "-0-") on any payments to be delivered outside the United States and its possessions.

NOTE: If you don't give Form W-4R to your payer, you don't provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer must withhold 10% of the payment for federal income tax and can't honor requests to have a lower (or no) amount withheld. Generally, for payments that began before 2022, your current withholding election (or your default rate) remains in effect unless you submit a Form W-4R.

Payments to nonresident aliens and foreign estates. Do not use Form W-4R. See Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities, and Pub. 519, U.S. Tax Guide for Aliens, for more information.

Tax relief for victims of terrorist attacks. If your disability payments for injuries incurred as a direct result of a terrorist attack are not taxable, enter "-0-" in the Withholding Election section. See Pub. 3920, Tax Relief for Victims of Terrorist Attacks, for more details.

2022 Marginal Rate Tables

You may use these tables to help you select the appropriate withholding rate for this payment or distribution. Add your income from all sources and use the column that matches your filing status to find the corresponding rate of withholding. See the instructions for more information on how to use this table.

Withholding Election

More withholding. If you want more than the default rate withheld from your payment, you may enter a higher rate in the Withholding Election section.

Less withholding (nonperiodic payments only). If permitted, you may enter a lower rate in the Withholding Election section (including "-0-") if you want less than the 10% default rate withheld from your payment. If you have already paid, or plan to pay, your tax on this payment through other withholding or estimated tax payments, you may want to enter "-0-".

Suggestion for determining withholding. Consider using the Marginal Rate Tables above to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table.

To determine the appropriate rate of withholding from the table, do the following. Step 1: Find the rate that corresponds with your total income not including the payment. Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate. If these two rates are the same, enter that rate in the Withholding Election section. (See Example 1 below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate in the Withholding Election section. (See Example 2 below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate in the Withholding Election section.

Examples. Assume the following facts for Examples 1 and 2. Your filing status is single. You expect the taxable amount of your payment to be \$20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits.

Example 1. You expect your total income to be \$60,000 without the payment. Step 1: Because your total income without the payment, \$60,000, is greater than \$54,725 but less than \$102,025, the corresponding rate is 22%. Step 2: Because your total income with the payment, \$80,000, is greater than \$54,725 but less than \$102,025, the corresponding rate is 22%. Because these two rates are the same, enter "22" in the Withholding Election section.

Example 2. You expect your total income to be \$42,500 without the payment. Step 1: Because your total income without the payment, \$42,500, is greater than \$23,225 but less than \$54,725, the corresponding rate is 12%. Step 2: Because your total income with the payment, \$62,500, is greater than \$54,725 but less than \$102,025, the corresponding rate is 22%. The two rates differ. \$12,225 of the \$20,000 payment is in the lower bracket (\$54,725 less your total income of \$42,500 without the payment), and \$7,775 is in the higher bracket (\$20,000 less the \$12,225 that is in the lower bracket). Multiply \$12,225 by 12% to get \$1,467. Multiply \$7,775 by 22% to get \$1,710.50. The sum of these two amounts is \$3,177.50. This is the estimated tax on your payment. This amount corresponds to 15.9% of the \$20,000 payment (\$3,177.50 divided by \$20,000). Rounding up to the next whole number, enter "16" in the Withholding Election section.
